Evaluation Assignment 1

Instructions: This assignment is for evaluation and marks will be awarded. You need to complete execution by 11 AM. The saved results folder (consisting .csv files, plots, word file) has to be submitted through a Google form, which will be shared by Teaching Assistant.

1. (30 points) Download any dataset from Kaggle which can be used for regression problem. Write a program for developing OLS and batch-mode gradient descent algorithms for designing hypothesis to predict dependent variable for test samples. The followings need to be included and detailed report also need to be submitted
 - (a) Data Analysis
 - (b) Normalization (if required)
 - (c) Hyperparameter Tuning
 - (d) Performance analysis and comparison
